My friend, Kevin, lives in Canada. Last summer, I visited him and stayed there for ten days. When I walked in his city, I \*noticed that there were not many cars in his city. People used bikes, so I said to him, “Many people use bikes here.” He said “Yes. Using bikes is good for the earth.” I rode bikes with Kevin a lot.

I learned some important things. There are many things to do for the earth. And we can easily try them. I’ll give you some examples. In Germany, people try the 3Rs. Do you know the 3Rs? They mean \*reducing, reusing and recycling.

For example, look at this picture. This is a \*toothbrush. You can change the brush head, so you don’t need to use new plastic handles. That’s reducing.

In Japan, now, we also try reducing. When we go shopping, we often use our shopping bags. In Japan, plastic bags were \*for free before, but now we need to buy them if we need. That’s also reducing.

I think there are many ways to save our earth. Let’s think about ①them.
